Exclusive, elegant and lasting.
Colombo Design and Cesana PVD finishes offer architects and interior designers the possibility to create refined and personalized bathrooms, spaces for personal well-being where every single piece of furniture fits in harmoniously, creating a total-look effect between accessories, shower profiles and handles for doors and windows.
Inspired by the new trending colors, Graphite, Vintage and Gold finishes, proposed both in polished and satinated, they are obtained with exclusive PVD (Physical Vapor Deposition) treatment: a process of the highest technological level to obtain a surface coating with exceptional aesthetic and technical characteristics through physical vapor deposition of a thin film of extraordinary hardness.
A green technology used by Colombo Design to offer stable color tones over time and to guarantee products with high surface hardness, inalterability against UV rays, resistance to wear and corrosion.
